## HAIL THE GREAT COLLEGE

### (West African College of Physicians Anthem)

1. West African College of Physicians, Hail  
Our countries and our peoples, we shall not fail  
Committed to Research and Training  
For Excellence in Health, We are proud we are serving  
Holistic care a Mission, a Vision avowed  
For Humanity and Posterity, we applaud  
Hail the Great College, Our Homage we pay
  
2. To our founding fathers Allegiance Accord  
Great Fellows and great Members yes we Afford  
To our Benefactors and Trainers we give Honour  
And we remember fallen Colleagues of Valour  
We lift up, therefore our voices together and say  
Hail the Great College, Our Homage we pay  
Hail the Great College, Our Homage we pay

## VISION OF THE COLLEGE

*A* truly West African Organisation of Medical Specialists that is a leading Voice in Postgraduate Medical Education in West Africa, able to provide and support high quality training of Doctors from graduation through specialty training and Continuing Professional Development to International Standards.

## MISSION OF THE COLLEGE

*To* improve the Health of West Africans through excellence in training of Medical Specialists and the provision of high quality Health care and high quality research into Health Promotion and Health Care.

## ABOUT THE COLLEGE

**T**he West African College of Physicians (The College) was formally inaugurated in Lagos, Nigeria on Saturday October 23, 1976.

It was one of the two constituent Colleges of the West African Postgraduate Medical College (WAPMC), which was the largest specialized agency of the former West African Health Community (WAHC). In 2001, the WAHC merged with their francophone counterparts, the OOCCEGS to form the West African Health Organization (WAHO) under the auspices of ECOWAS. Thus the College works closely with WAHO. The membership of the College originally covered the five (5) English-speaking countries in West Africa; The Gambia, Ghana, Liberia, Nigeria and Sierra Leone. Following the establishment of WAHO, the College has embarked on a drive to include specialists from the French-speaking countries in West Africa. The College now has twelve (12) Chapters: Benin Republic, Burkina Faso, Cote D'ivore, The Gambia, Ghana, Guinea, Liberia, Mali, Nigeria, Senegal, Sierra Leone, Togo, and Fellows in Niger, Guinea Bissau.

The Faculty is the academic/specialty unit of the College and there are presently six (6) Faculties: Community Health, Family Medicine, Internal Medicine, Laboratory Medicine, Paediatrics and Psychiatry. All the Fellows and Members of the College in a member Country, irrespective of their Faculties, constitute a Chapter of the College. Currently, there are over three thousand (3,000) Fellows of the College and over two thousand (2,000) Fellowship Trainees.

The major functions of the College are:

1. Organisation of professional specialist postgraduate medical training in West Africa, through formal courses, workshops, conferences, etc.
2. The certification of specialists in the six (6) major disciplines through a programme of examinations.
3. The accreditation of training institutions for conducting postgraduate medical training for the Membership and Fellowship diplomas of the College.
4. An advisory role to the governments of West Africa on relevant aspects of health and health care.
5. The provision, through its members (Fellows of the College), of specialized health care.

The first **Fellowship examinations** were held in October, 1979. Currently, the examinations

are held in Ibadan, Enugu, Abuja, Accra, Monrovia, Freetown, and Banjul, Nigeria and Accra, Ghana. The Fellowship certificates of the College are recognized in the participating countries and guaranteed by the signatories of the WAHO. The candidates earn the Membership certificate (MWACP) by passing the Membership examination of the Fellowship diploma. Successful completion of the residency programme earns the candidate the Fellowship certificate (FWACP). The College also awards a diploma in Mental Health.

The College has an Endowment Fund which was launched in member countries to provide financial support to maintain the College Programme of training postgraduate candidates and updating Fellows by Continuous Medical Education. Contributions to this fund are welcome.
